Free $1K 2-Step Account Campaign
Terms and Conditions

Paid To Trade

Effective date: July 17, 2026

---

1. The Campaign

This campaign gives away free $1K 2-Step Static evaluation accounts. The $1K size exists only in this campaign and is not part of the regular product lineup.

The campaign is limited to the first 1,000 accounts issued and has no fixed end date. The limit per claimant is one free account per household (Section 2). When 1,000 accounts have been issued, the campaign closes to new submissions. Paid To Trade may also close the campaign to new submissions earlier. Closure is announced publicly on the same channels where the campaign was announced. Accounts already issued are honored in full under these terms.

2. Eligibility

To receive a free account you must:

- Be 18 years or older.
- Be able to pass identity verification (KYC) before any payout. No country is excluded. Payouts remain subject to KYC and payment-provider requirements.
- Have an X (Twitter) account created before July 17, 2026.
- Have an Instagram account created before July 17, 2026.

One free account per household, for life. A household is all people living at the same residential address. If more than one submission comes from the same household, or from the same or similar IP address, all of those submissions are void: none of them gets an account, and any account already issued on them is closed. Decide who enters before anyone enters.

Within that limit, the submission is personal. "Person" means the human being, not the email address, the X account, or the device. Submissions made through relatives, friends, associates, employees, or anyone acting on your behalf count as yours. The person who passes KYC must be the person who trades the account.

Holding paid Paid To Trade accounts does not affect eligibility. Whether you hold zero paid accounts or ten, the limit is the same: one free account per household.

Paid To Trade employees and contractors are not eligible. Affiliates may take part, under the same one-per-household limit as everyone else.

3. How to Get an Account

1. Join our Discord server and say hi in #lounge: discord.gg/paidtotrade
2. Follow our Instagram account: https://www.instagram.com/paidtotrade.propfirm
3. Follow our X account: https://x.com/Paidtotradenet
4. Tag or message someone you know or idolize with 10,000 or more followers (Instagram or X) about Paid To Trade. (Example: https://imgur.com/SBwMfDp)

5. Leave an honest review on our Trustpilot: https://www.trustpilot.com/review/paidtotrade.net
6. Complete the submit page: your full name exactly as it appears on your government ID, email address, residential address, X handle, and the link to your post.

Register with the exact name on your ID. A nickname or shortened name will not match at KYC and will delay or block your payout.

Submissions are reviewed manually by our staff. We check every step, including the follows, your tag or message, your review, and your details, then issue accounts in the order submissions arrive. The post from step 4 must stay live until your account is issued. Providing false information on the submit page voids your submission.

4. Verification and KYC

We verify twice. Once at submission, before any account is issued, and again with full KYC before any payout.

Verification may include checking your government ID, name, email, phone number, address, payment details, device and browser data, IP address, and trading behavior against all Paid To Trade records, past and present.

The name and address you give at submission must match your government ID at KYC. A mismatch triggers a review, and payouts wait until it is resolved.

If you refuse or fail KYC, no payout is made and the account closes.

5. The Account and Trading Rules

The free account is a standard 2-Step Static account at $1K size:

Parameter	Value
Phase 1 profit target	10%
Phase 2 profit target	5%
Minimum trading days per phase	4
Static daily loss	4%
Static max loss	8%
Profit split	80%
Consistency rule	None
Profit cap	None
Time limit	None

News trading, arbitrage, and hedging are not allowed, the same as on every Paid To Trade account. A trading day is any day with at least $0.01 in closed profit.

Accounts converted through the trade-in (Section 7) are eligible for the Paid To Trade scaling program, the same as any paid 2-Step account.

6. Payout Terms for the Free Account

The free account differs from a paid account in two ways:

1. **It includes one payout.** Paid accounts have unlimited payouts. The payout unlocks at 1% closed profit on the funded account, the same as paid accounts.
2. **At 5% or more closed profit, a trade-in option opens.** See Section 7.

The payout amount is your share of closed profit under the 80% split at the time of your request. Example: at 1% profit on the $1K funded account, that is $10 in closed profit and an $8 payout. At 5%, $50 in closed profit and a $40 payout.

You decide when to request your payout. A payout taken below 5% closed profit has one outcome: it is paid and the account closes. A request at 5% or above opens both options in Section 7. Requesting later than 5% means a larger payout and a larger trade-in price. That trade-off is yours to choose.

7. The Trade-In Choice

Payout handling is manual. When your payout request is approved, we contact you directly with your options:

- **Keep it.** Available at any payout from 1% closed profit. We pay you the full payout amount. The free account closes. You owe nothing.
- **Trade it in.** Available only when closed profit is 5% or higher at the time of request. You give up this one payout in full. The account converts to a standard 2-Step funded account: unlimited payouts, 1% payout minimum, weekly payout cycle, same trading rules. On conversion, the account balance resets to $1,000, matching standard post-payout behavior.

If you request a payout below 5% closed profit, we tell you before paying that taking it closes the account and that the trade-in option will not be available afterward. You may withdraw the request and keep trading toward 5% instead.

Once you confirm your choice, it is final. It cannot be reversed, deferred, or split.

8. Activation and Expiry

Place your first trade within 14 days of the account being issued or the account expires. No extensions.

The free account is one-time. There are no free resets or re-attempts. A blown account means a new account at normal pricing, if you want one.

9. One Account Per Household: Prohibited Conduct

The following are prohibited and are treated as campaign fraud:

a. Obtaining, or attempting to obtain, more than one free account per household, directly or indirectly.
b. Using another person's identity, including a relative's, lending your identity to someone else, or using false, purchased, or invented identities.
c. Using a false or borrowed address, or spreading submissions across multiple addresses, to get around the one-per-household limit.
d. Using multiple X accounts, email addresses, devices, IP addresses, VPNs, or payment identities to disguise repeat submissions.
e. Directing, paying, or organizing other people to obtain accounts that you control, trade, or share profits from.

f. Letting anyone other than the verified account holder trade the account.

g. Coordinated trading across free accounts, including mirrored positions or opposite-side positions placed so that at least one account passes.

h. Coordinated or opposite-side trading between a free account and any other account under your control or influence.

i. Selling, renting, or transferring a submission, an account, or account credentials.

10. Enforcement

If we determine that Section 9 has been breached:

- Every free account connected to the breach is void.
- Every pending payout on those accounts is forfeit.
- The person responsible is **banned permanently** from Paid To Trade. That means every current account they hold can be closed, and every future registration will be refused. This ban has no expiry.

We detect farming by cross-checking identity data, payment data, device and network data, and trading patterns across all accounts. Matching trade timing across "unrelated" accounts is the signal that catches most farming rings.

Fees paid on other accounts held by a banned person are handled under the terms of those accounts.

11. Fair Review

Enforcement decisions are made by a human after reviewing the evidence, not by an automated rule alone.

Duplicates are treated strictly. Two submissions from one address, or from the same or similar IP, void both, even when there was no bad intent. Being voided is not the same as being banned. The permanent ban in Section 10 is for deception: borrowed or false identities, false addresses, letting someone else trade your verified account, or organized multi-claiming.

Appeals: contact support within 14 days of a decision, with your ID. If an IP match turns out to be two different people at two different addresses, for example a shared mobile network or public wifi, we reinstate. Same-household duplicates stay void; that rule has no exceptions.

12. Taxes

Payouts may be taxable where you live. Taxes are your responsibility.

13. Transfers and Resale

Submissions, accounts, and payouts under this campaign are personal. They cannot be sold, transferred, gifted, or inherited.

14. Campaign Changes and Closure

We may amend these terms or close the campaign to new submissions at any time. Amendments apply only to submissions made after the change. Accounts already issued keep the terms that were in force when they were issued. If the campaign closes, we announce it publicly on the same channels where it was announced.

15. Relationship and Disclaimers

Evaluation phases run in a simulated environment. Funded accounts are governed by the standard Paid To Trade trader agreement, which applies alongside these terms. Where these campaign terms and the trader agreement conflict, these campaign terms control for the free account.

Nothing in this campaign is investment advice, an offer of employment, or an offer of investment services. Trading involves risk of loss.

16. Governing Law and Disputes

These terms are governed by the laws of the United Arab Emirates. The courts of the United Arab Emirates have exclusive jurisdiction over any dispute arising from this campaign.
